

**PRIMARY DENTAL HEALTH AIDE PRECEPTORSHIP
PRECEPTORSHIP CHECKLIST**

PDHA NAME: _____ **VILLAGE:** _____

PRECEPTORSHIP SITE: _____ **DATE:** _____

PRECEPTOR #1 NAME/TITLE: _____

PRECEPTOR #2 NAME/TITLE: _____

PRECEPTOR #3 NAME/TITLE: _____

PRECEPTOR #4 NAME/TITLE: _____

Purpose:

This checklist is to record the number of procedures performed by a PDHA in order to verify the fulfillment of the minimum requirements (for certification of skill set being performed) set forth in the Community Health Aide Program Certification Board Standards and Procedures. All procedures are to be performed under direct supervision of a dentist, dental health aide therapist, licensed dental hygienist, or a dental health aide hygienist.

Directions: Preceptor will directly observe and determine if the PDHA has performed the procedure satisfactorily (S) or unsatisfactorily (U). If a “U” is given for the first try, the PDHA may attempt procedure as many times as needed to perform the skill satisfactorily. The preceptor should initial the line item, once the skill is completed successfully. SATISFACTORY PERFORMANCE should only be initialed and dated when the PDHA can perform the skill without assistance; however, the manual can be used for reference. Satisfactory performance means that the PDHA demonstrated the skill well enough to be entrusted to do it in a daily work situation. This tally sheet may be signed off at the training center/ clinic or in the village by an authorized village itinerant. When the checklist is complete, it should be filed by the corporation in the PDHA’s personnel records.
