

Exam for CHP

Beginning on June 1, 2024, Exam for CHP will be an online test; the paper exam will be retired and no longer accepted. The Exam for CHP will be available on the ANTHC Distance Learning Network (also known as Remote Learner).

A passing grade (minimum of 80%) on the exam is a requirement to complete a Preceptorship and attain an initial CHP certification or a CHP renewal certification.

The exam is an open book test with 50 multiple choice or matching questions. The fill-in-the-blank and short answer questions have been removed. Every answer for every question is found in the CHAM. The exam will test competency of CHAM use through a variety simulated patient encounters. The average student should be able to complete the test in 60 – 90 minutes.

The Exam for CHP will grade automatically once the student has completed it. The option for oral review will no longer be available. A certificate with the final score will be available to download immediately upon completion.
